### FOR IMMEDIATE RELEASE

#### Colorado Engineering Council President Presents Awards to First Responders and Colorado Department of Transportation Engineer

DENVER (June 2, 2017) — Elizabeth Stolfus, PE, 2016-17 president of the American Council of Engineering Companies of Colorado (ACEC Colorado), recently presented President's Awards to Major Tim Keeton, Colorado State Patrol; Captain Rob Marone, Colorado State Patrol; Captain Greg Gilbert, Loveland Fire Rescue Authority; and Larry Haas, PE, Colorado Department of Transportation.

Each ACEC Colorado President's Award is selected by the outgoing president to recognize stewardship of the community.

"The first responders and engineers of the North I-25 Transportation Incident Management (TIM) team have broken down barriers and built the kind of collaboration that characterizes the engineering method at its best," said Stolfus. "It was an honor to present ACEC Colorado's 2017 President's Award to the North I-25 TIM team in recognition of the positive impact the team has made on travel safety on Colorado's roadways by putting community first. These first responders and engineers have not only improved safety for Coloradans, they also have advanced the engineering practice by contributing their expertise in creating the future state of traffic incident management practice," she said.

The awards were presented during a ceremony at the ACEC Colorado Annual Meeting on May 19 at Magnolia Hotel Denver.

#### **About ACEC Colorado**

*ACEC Colorado (www.acec-co.org) is the business association of more than 238 member firms employing approximately 11,900 employees in the independent private practice of consulting engineering. The organization is a primary resource for accessing engineering information, expertise, and business ethics practices. ACEC Colorado provides leadership and direction by developing practical, feasible options and solutions based on technical collaboration to achieve enduring outcomes that benefit society.*
