The American Council of Engineering Companies of Colorado (ACEC Colorado) is pleased to extend this exclusive invitation to you and your company to become a sponsor of the Subsurface Utility Engineering Training Series. In partnership with Colorado Department of Transportation (CDOT) and Colorado 811, ACEC Colorado is presenting these trainings to provide an overview of the Colorado 811 One Call/Subsurface Utility Law (effective Aug. 8, 2018) and what it means for the design, construction and utility companies that are implementing requirements of the law into their projects, as well as for the governmental agencies. Between 50 to 100 individuals from the aforementioned organizations and other industry partners are anticipated to attend each workshop.
