Wednesday, February 19, 2020
4:00 pm - 6:30 pm

ICOSA Media
4100 Jackson Street | Denver
Register Online at www.acec-co.org

As you may know, the Denver Building & Fire Code establishes the minimum, mandatory standards for building construction in Denver. On Dec. 23, 2019, Denver adopted an updated building and fire code based on the 2018 series of base codes from the International Code Council (ICC). As part of the local business community, you are invited to learn more about how these changes will affect the buildings you own, manage or develop.

There will be a panel of experts that will offer an overview of Denver’s process in adopting the new code followed by a targeted discussion with Q&A on the changes that could impact you the most. Stay after the program to enjoy refreshments while networking with the speakers during a reception!

This event is part of Colorado Engineers Week 2020 (Feb. 16-22).
