AMERICAN COUNCIL OF ENGINEERING COMPANIES
of Colorado

ANNUAL PROSPECTUS

MISSION: ACEC Colorado advances a business environment that helps professional design firms thrive.™

VISION: Connecting the professionals who improve the natural and built environments.

ACEC Colorado is a trade association with approximately 255 member firms representing more than 13,300 employees in the independent, private practice of consulting engineering in the state. Through its mission of advancing a business environment that helps professional design firms thrive, ACEC Colorado provides leadership and business trainings, advocacy initiatives, and key networking opportunities to connect professionals who improve the natural and built environments.

ACEC Colorado members specialize in and are a resource on technical matters in the areas of transportation, mechanical-electrical, structural, geotechnical, and environmental (wastewater management, water resources and air pollution) engineering, as well as energy, surveying and land development. As company owners, principals of these consulting engineering firms can also be of assistance on business matters.

ACEC Colorado is part of the ACEC National federation, which consists of 51 similar state and regional member organizations advocating for policies that promote economic growth and improve the quality of life for every American.

ACEC Colorado Live Program Calendar

Corporate Sponsorship Program

This program offers your business a strategic way to connect with key decision-makers in Colorado's consulting engineering sector. As an ACEC Colorado Corporate Sponsor, your business receives an annual Sustaining Membership, presence at events, visibility on acec-co.org, recognition in ACEC Colorado's digital newsletter (distributed to 2,500+ employees of member firms), and use of an official Corporate Sponsorship badge.

Annual Conference

The Council's Annual Conference is held in the spring and offers an all-encompassing educational and networking experience for more than 350 professionals from consulting engineering firms, state and local agencies and industry-affiliated companies. The Annual Conference includes sector-specific education on transportation, vertical design, water resources-environment, and energy-climate strategy, as well as issues related to business practices. With more than five breaks, a breakfast and a reception with exhibitors, your business will have ample time to network with professionals interested in the services and products you provide.

LeadershipSERIES

Leadership Series

This in-person series offers a multi-month, comprehensive program to advance the professional growth of emerging leaders, mid-level leaders and senior leaders at consulting

engineering firms. Your business's sponsorship will include regular acknowledgement at the live sessions, as well as the opportunity to engage in special networking opportunities with more than 60 enrollees in the three cohorts of the series.

LEARN MORE

Regional Member Meetings

Regularly scheduled regional meetings are designed to spotlight trends and challenges important to ACEC Colorado member firms in specific areas of the state. These meetings typically are held in conjunction with presentations, roundtable discussions and networking opportunities. As an annual sponsor, at each meeting, your business can reach 20-35 professionals from consulting engineering firms, state and local agencies and industry-affiliated companies.

Colorado Engineering Excellence Awards (EEA) Program

The Colorado EEA program has been held for more than 65 years to annually recognize consulting engineering firms for projects that demonstrate an exceptional degree of innovation, complexity, achievement and value. As a sponsor, your business will receive acknowledgement from June-November through recognition at the annual how-to-enter workshop, in call-for-entries emails, and at the annual luncheon that is attended by approximately 200 individuals from consulting engineering firms, state and local agencies and industry-affiliated companies.

COLORADO ENGINEERS WEEK

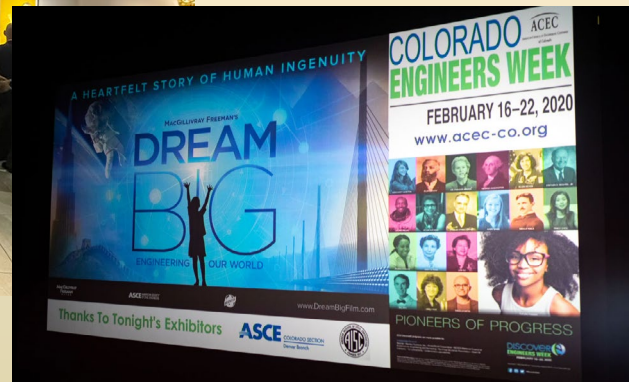

ACEC
AMERICAN COUNCIL OF ENGINEERING COMPANIES
of Colorado

Colorado Engineers Week

This celebration takes place each February to raise public awareness of engineers' positive contributions to

quality of life and the importance of educational experiences that motivates youth to pursue engineering careers in order to provide a diverse and vigorous engineering workforce. The keystone event of Colorado Engineers Week is an in-person reception attended by professionals from consulting engineering firms and legislators from the Colorado General Assembly. Additionally, ACEC Colorado Foundation sponsors community outreach and educational events, including a partnership with the Colorado Region Future City® Competition. Through sponsorship, each event offers your business the opportunity to reach more than 25 professionals and/or members of the public.
